1. Please supply field dimensions to the nearest 2mm. Decoustics will calculate panel sizes.

2. Please verify and confirm all dimensions, mounting methods, and details.

3. All panels must be installed flat, ±0.3mm, over 2450mm. It may be necessary to shim hardware as required.

4. The framing used on Decoustics panels are directional. The correct orientation for metal framing should be shown on the drawing.

5. Do not butt panels next to each other during installation. Each panel must be shimmed and centered panels to allow for proper alignment.

6. For additional panel installation details, see data sheets.

**Panel Edge Detail:**
- **Panel Type:** QPP-19 Type 5, 28mm [1-1/8"] thick flat
- **Mounting:** Direct Suspended Mount
- **Finish:** TBD
- **Veneer Type:** TBD
