1. Please supply field dimensions to the nearest 2mm, Decoustics will calculate panel sizes.

2. Please verify and confirm all dimensions, mounting methods, and details.

3. All panel penetrations for light fixtures, electrical outlets to be field cut by others. Panel penetrations, using etc. to be supported independently of acoustic panels.

4. All grilles, diffusers, lights etc. to be supported independently of acoustic panels.

5. Panels must be installed flat & level to +/− 2mm over 2450mm. It may be necessary to shim hardware as required.

6. The finishes used on Decoustics panels are directional. The back of each panel will be marked to show the correct orientation for installation.

7. Do not butt panels next to each other during installation. Leave 2mm between panels to allow for proper alignment.

8. For additional panel installation details, see data sheets.
