GENERAL NOTES:

1. Please supply field dimensions to the nearest 2mm, Decoustics will calculate panel sizes.

2. Please verify and confirm all dimensions, mounting methods, and details.

3. All panel penetrations for light fixtures, electrical, plumbing, etc., to be field cut by others.

4. All panels, supports, lighting, etc., to be supported independently of acoustic panels.

5. Panels must be installed flat & level, the 2mm tolerance should be observed, if necessary, to shim hardware as required.

6. Finishes used on Decoustics panels are directional. The back of each panel will be marked to show the correct orientation for installation.

7. Do not butt panels next to each other during installation. Allow 2mm between panels to allow for proper alignment.

8. For additional panel installation details, see data sheets.

### Edge Detail:

- **Panel Type**: QPP-19 Type 5, 28mm [1-1/8"] thick flat panel
- **Mounting**: Mechanical Mount
- **Finish**: TBD
